RE: RPAC

Kristine and Sean,

It is very important that DEQ and EPA are operating from the same page so to speak with regard to the RPAC CSM, source control strategy and schedule. Consequently, I am assuming that a DEQ/EPA teleconference or meeting is still needed.

DEQ has a scheduled meeting with RPAC on July 10th to discuss the status of groundwater source control. If possible we would like to have a check in with EPA prior to that meeting. Kristine can you get back to either myself or Tom Roick, if I am not available, as to whether your team will be ready or available to meet prior to July 10th.

Also, DEQ just received an RPAC document with the results of the groundwater work on the Siltronic site (AMEC, June 21, 2007, Stage 2 Source Control Evaluation Technical Memorandum RP-Portland Site). I will forward a copy to Kristine's attention.

Matt

Subject: RPAC call tomorrow--Friday 6/22, cancelled

All,

Kristine et. al need more time to work on the RP letter and catch up on reports sent, so let's defer the call (if still needed) to a later date.

Thank you.

I'm unable to make it to the RPAC
call tomorrow--Friday 6/22

All,

I've got to take my daughter to a Dr. appt. tomorrow unfortunately during the RPAC telecon--

Kristine, could you let Jim & Matt know if you'd like to go ahead (that's fine with me)--this may be the best idea to be able to continue to finalize a letter to RP.

The dial in #: **Non-Responsive** onference **Non-Responsive** leader pin: **Non-Responsive**
(Kristine, you would type this in as the leader)

Sorry for the short notice.
